

Basic Detail Report

New Mexico Rainstorm

Date

1949

Primary Maker

Edward Bearden

Medium

Lithograph

Description

A large cumulus rain cloud is set above the rugged mountains below. On the left a driving rain falls. The sky above the mountains to the right of the lithograph is still light emphasizing the drama approaching. The black and white lithograph is illustrative

and a strong rendition of this New Mexico weather pattern. - Judith Kendall, I.S.A., AM

Dimensions

image: 9 3/4 x 13 1/2 in. (24.8 x 34.3 cm)
