

Tequila Cup

Date

c. 1970-1980's

Primary Maker

Ken Price

Medium

ceramic

Description

During the early seventies Price created a series of Tequila cups which were also used to test glazes. Price frequently gave them to houseguests and friends. There were also a part of the exhibition "Happy's Curios" The subject cup is a dark brown mottled with green exterior and an orange interior. There are brown drips from the lip into the interior. The tip of the rim is blue and there is a lightening bolt pattern on the front in black glaze.
